COMPANY PRODUCT CATALOGUE

3S GLOBAL

3S GLOBAL specializing in manufacturing industrial gloves

Established in 2015, 3S GLOBAL began to research and develop gloves for special work and came to be an enterprise specializing in making industrial gloves on the basis of its technology accumulated for several years. We protect your hands safely from various kinds of industrial sites and always do our best to provide the high quality and innovative product.

3S GLOBAL always stays with you.

01

Knitting

We produce high quality of liner based on our skill and specialized technology.

02

Coating

Based on Unique Technology of 3S GLOBAL, we produce high quality coated gloves.

03

Printing

After drying, the logo and other needed symbols are automatically printed on the external part of the coated gloves by screen printing machines.

**Packing**

Fully sorted and packed with strict Quality Control.

04

Manufacturing Process

Product List

3S GLOBAL began to research and develop gloves for special work and came to be an enterprise specializing in making industrial gloves on the basis of its technology accumulated for several years. With the technological advancement of existing NBR gloves, we manufacture high quality industrial coated gloves such as AIR CELL specialized in breathability, SUPER CELL with excellent dexterity and eco-friendly TOP gloves. Other patented designs and products have been recognized for quality and we aim to manufacture higher quality industrial gloves.
